Title: Chief Executive Officer

Stevanato Group Reports Third Quarter 2023 Financial Results - Reiterates Full Year 2023 Guidance-

PIOMBINO DESE, Italy – October 31, 2023 – Stevanato Group S.p.A. (NYSE: STVN), a leading global provider of drug containment, drug delivery, and diagnostic solutions to the pharmaceutical, biotechnology, and life sciences industries, today announced its financial results for the third quarter of 2023.

Third Quarter 2023 Highlights (compared with the same period last year)

- Third quarter revenue increased 11% to €271.4 million.
- Revenue from high-value solutions increased to 32% of total revenue.
- Net profit increased 4% to €37.9 million, and diluted earnings per share were €0.14.
- Adjusted net profit increased 6% to €40.1 million, and adjusted diluted earnings per share were €0.15.
- Adjusted EBITDA margin increased 70 basis points to 27.5%.
- The Company is reiterating its full year 2023 guidance and continues to expect revenue in the range of €1.085 billion to €1.115 billion, adjusted EBITDA in the range of €291.8 million to €303.8 million, and adjusted diluted EPS between €0.58 and €0.62.

Third Quarter 2023 Results

Revenue for the third quarter of 2023 increased 11% to €271.4 million (approximately 13% on a constant currency basis), compared with the same period last year, driven by growth in both of the Company's business segments. This was lower than expected due to the timing of revenue on certain engineering projects, and the Company expects to recognize revenue from these projects in the fourth quarter of 2023.

For the third quarter of 2023, revenue from high-value solutions increased to 32% of total revenue, compared with 30% in the same period last year, driven by demand for high-performance and ready-to-use products. For the third quarter of 2023, revenue related to Covid-19 decreased 84% and represented approximately 2% of revenue, compared with approximately 13% of revenue for the same period last year. Excluding revenue contributions from Covid-19, revenue grew approximately 25% in the third quarter of 2023.

For the third quarter of 2023, gross profit margin decreased to 30.5%, resulting from lower marginality on certain engineering projects, the ongoing start-up activities related to the Company's new EZ-fill[®] manufacturing plants, and higher depreciation. This decrease was partially offset by the increased mix of more accretive high-value solutions. Operating profit margin for the third quarter of 2023 decreased 60 basis points to 18.8%, and adjusted operating profit margin was 20%, which was consistent with the same period last year.

Adjusted EBITDA margin increased 70 basis points to 27.5% in the third quarter of 2023, compared with the third quarter of 2022.

For the third quarter of 2023, net profit increased to €37.9 million, or €0.14 of diluted earnings per share, and on an adjusted basis, net profit increased 6% to €40.1 million, or €0.15 of diluted earnings per share, compared with the same period last year.

Stevanato Group S.p.A.
Via Molinella, 17 - 35017 Piombino Dese, Padova, Italy
Cap. Soc. € 21.698.480,00 i.v. - C.f. e P. IVA: 01487430280 / VAT code: IT01487430280 R.l. Padova n. 01487430280 - REA n. 164290

Franco Moro, Chief Executive Officer, stated, "While Engineering Segment revenue was below our internal expectations due to the timing on specific projects, the Biopharmaceutical and Diagnostics Solutions Segment continues to perform well. In our core drug containment business, current demand remains robust and our capacity expansion investments in high-value solutions are designed to capitalize on the demand in biologics and satisfy customers' needs. We continue to expect that the increase in biologics, including GLP1s, monoclonal antibodies, mRNA applications, and biosimilars will help drive durable organic revenue growth."

Biopharmaceutical and Diagnostic Solutions Segment (BDS)

For the third quarter of 2023, BDS Segment revenue grew 6% to €218.9 million (approximately 8% on a constant currency basis), compared with the same period last year, driven by growth in the Company's core Drug Containment Solutions (DCS) business. For the third quarter of 2023, revenue from high-value solutions increased 16% to €86.2 million, while revenue from other containment and delivery solutions was €132.8 million and consistent with the same period last year.

As expected, growth in high-value solutions partially offset the temporary effect of the Company's start-up activities and associated costs for its new EZ-fill® manufacturing plants and higher depreciation. This led to gross profit margin of 32.7% and operating profit margin of 21.2% for the third quarter of 2023.

Engineering Segment

Revenue from the Engineering Segment increased 37% to €52.5 million for the third quarter of 2023, compared with the same period last year, driven by growth in all business lines. This was below the Company's expectations due to the timing of revenue on certain engineering projects.

A combination of increased demand and the gradual recovery in the supply chain for electronic components, has created a temporary bottleneck of work, which unfavorably impacted margins on certain projects in the third quarter of 2023. For the third quarter of 2023, gross profit margin for the Engineering Segment decreased to 18.5%, and operating profit margin was 11.2%, driven by lower marginality on certain projects.

Balance Sheet and Cash Flow

As of September 30, 2023, the Company had net debt of €227.5 million, and cash and cash equivalents of €64.8 million. As expected, capital expenditures for the third quarter increased to €107.2 million, as the Company advances its strategic growth investments in capacity expansion for high-value solutions to meet customer demand.

For the third quarter of 2023, cash flow from operating activities was €33.5 million. Cash flow used for the purchase of property, plant, and equipment, and intangible assets totaled €132.3 million, which resulted in negative free cash flow of €97.8 million in the third quarter of 2023.

New Order Intake and Backlog

For the third quarter of 2023, new order intake increased 4% to approximately €256 million, compared with €247 million in the same period last year. As of September 30, 2023, committed backlog totaled approximately €924 million.

2023 Guidance

The Company is reiterating its full year 2023 guidance and still expects:

- Revenue in the range of €1.085 billion to €1.115 billion,
- Adjusted EBITDA in the range of €291.8 million to €303.8 million, and

- Adjusted diluted EPS in the range of €0.58 to €0.62.

The Company continues to expect capital expenditures in the range of 35% to 40% of total revenue for fiscal 2023, net of contributions from third parties including the U.S. government's Biomedical Advanced Research and Development Authority (BARDA), based on the mid-point of its revenue guidance range.

Executive Chairman, Franco Stevanato, concluded, "The fundamentals of our business remain strong, and we are reiterating guidance for the full year. For more than 50 years we have been fully dedicated to serving pharmaceutical customers worldwide. We are currently benefiting from macro trends such as aging populations, the rise in biologics and biosimilars, and the shift towards the self-administration of medicine. We operate in growing end markets, particularly biologics where we have built a leadership position. We currently expect that these favorable tailwinds will fuel sustainable double-digit revenue growth in the years to come."

Conference Call

The Company will host a conference call and webcast at 8:30 a.m. (ET) on Tuesday, October 31, 2023 to discuss financial results. During the call, management will refer to a slide presentation which will be available on the day of the call on the "Financial Results" page under the Company's Investor Relations section of its website.

Pre-registration: Participants who pre-register will be given a conference passcode and unique PIN to gain immediate access to the call and bypass the live operator. We encourage participants to pre-register for the call using the following link:

<http://services.choruscall.it/DiamondPassRegistration/register?confirmationNumber=4544003&linkSecurityString=514976446>

Webcast: A live, listen-only webcast of the call will be available at the following link:

<https://87399.choruscall.eu/links/stevanato231031.html>

Dial in: Those who are unable to pre-register may dial in by calling:

Italy:	+39 02 802 09 11
United Kingdom:	+44 1 212 818004

Forward-Looking Statements

This press release may include forward-looking statements. The words "expects," "reiterating," "strong," "expected," "continues," "continue," "favorable," "growth," "durable," "remain," "benefiting," "expect," "remains," "demand," "are designed," "drive," "increased," "created," "advances," "rise," "shift," "growing," "sustainable," and similar expressions (or their negative) identify certain of these forward-looking statements. These forward-looking statements are statements regarding the Company's intentions, beliefs or current expectations concerning, among other things, investments the Company expects to make or receive, the expansion of manufacturing capacity, the

Company's plans regarding its presence in the U.S. and in other locations, business strategies, the Company's capacity to meet future market demands and support preparedness for future public health emergencies, and results of operations. The forward-looking statements in this press release are based on numerous assumptions regarding the Company's present and future business strategies and the environment in which the Company will operate in the future. Forward-looking statements involve inherent known and unknown risks, uncertainties and contingencies because they relate to events and depend on circumstances that may or may not occur in the future and may cause the actual results, performance or achievements of the Company to be materially different from those expressed or implied by such forward looking statements. Many of these risks and uncertainties relate to factors that are beyond the Company's ability to control or estimate precisely, such as future market conditions, currency fluctuations, the behavior of other market participants, the actions of regulators and other factors such as the Company's ability to continue to obtain financing to meet its liquidity needs, changes in the political, social and regulatory framework in which the Company operates or in economic or technological trends or conditions. For a description of the risks that could cause the Company's future results to differ from those expressed in any such forward looking statements, refer to the risk factors discussed in our most recent annual report on Form 20-F filed and our most recent filings with the U.S. Securities and Exchange Commission. Readers should therefore not place undue reliance on these statements, particularly not in connection with any contract or investment decision. Except as required by law, the company assumes no obligation to update any such forward-looking statements.

Non-GAAP Financial Information

This press release contains non-GAAP financial measures. Please refer to the tables included in this press release for a reconciliation of non-GAAP financial measures.

Management monitors and evaluates our operating and financial performance using several non-GAAP financial measures, including Constant Currency Revenue, EBITDA, Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Operating Profit, Adjusted Operating Profit Margin, Adjusted Income Taxes, Adjusted Net Profit, Adjusted Diluted EPS, Capital Employed, Net Cash/Net Debt, Free Cash Flow, and CAPEX. We believe that these non-GAAP financial measures provide useful and relevant information regarding our performance and improve our ability to assess our financial condition. While similar measures are widely used in the industry in which we operate, the financial measures we use may not be comparable to other similarly titled measures used by other companies, nor are they intended to be substitutes for measures of financial performance or financial position as prepared in accordance with IFRS.

About Stevanato Group

Founded in 1949, Stevanato Group is a leading global provider of drug containment, drug delivery and diagnostic solutions to the pharmaceutical, biotechnology and life sciences industries. The Group delivers an integrated, end-to-end portfolio of products, processes, and services that address customer needs across the entire drug life cycle at each of the development, clinical and commercial stages. Stevanato Group's core capabilities in scientific research and development, its commitment to technical innovation, and its engineering excellence are central to its ability to offer value added solutions to clients.
